PODCAST Q & A

The Podcast is about **“Leaders of Influence”**. And sharing your experience, so that other leaders can find their influence, and be a positive influence on their teams or others in their lives.

Influence is defined as “The capacity to have an effect on the behaviour, character, or the development of someone or something, or the effect itself!”

HOW WILL IT BE DONE – FACE TO FACE? OR ONLINE?

Let’s do it over Riverside, if you are happy to, that way it is easy to record and transcribe. I have a \$10k studio here in the office, with 2 cameras, so the outcome will be professional.

WHO IS THE INTENDED AUDIENCE AND HOW WILL IT BE USED MOVING FORWARD?

The target audience is leaders at all levels of organisational, who want to improve the leadership skills by being better at developing other humans in some way, through being a positive influence on them.

In general, middle level leaders will most likely get the most value from the information shared.

HOW LONG WILL IT BE?

I like them to be approximately 45 minutes long, though some go longer, depending on responses from the guests.

WILL I GET SOME PRE-LOADED QUESTIONS FOR ME TO CONSIDER OR DO YOU PREFER "OFF THE CUFF"

Either/or, it is entirely up to you, and if you let me know before hand, I can stick to the script, or we can go off the cuff a bit more. Here are the questions in general:

How would you define the concept of Influence?

- Who was a leader who influenced your leadership style – what did they do that stuck with you?
- What’s a leadership moment where you had zero formal authority but still had to influence the outcome – how did you do it?
- When your team resists a change, you know is necessary, what’s your influence strategy?
- How do you influence someone more experienced or senior than you when you disagree?
- What’s one tip for leaders who want to increase their influence?
